

MAHMOUD DOMA

FRONT END DEVELOPER

Al Giza Cairo Egypt | devdoma2002@gmail.com | <https://shorturl.at/tACSG> | +201093490526

SUMMARY

Front-End Developer with over one year of experience building responsive, user-friendly web applications using Angular 19, JavaScript, HTML5, and CSS3, with basic knowledge of ReactJS. Skilled in API integration, asynchronous request handling, and modern UI customization, with experience in real-time applications and Git version control. Professional background includes roles in technical support, software implementation, and front-end development, delivering solutions that align with client needs. Passionate about continuous learning and adopting new technologies to create high-quality, maintainable code and exceptional user experiences.

TECHNICAL SKILLS

- Languages & Frameworks: HTML5, CSS3, JavaScript, TypeScript, Angular 19, jQuery, Basic ReactJS
- Styling & Design: Responsive Design, Sass, UI/UX Principles, Accessibility Standards
- Tools & Platforms: Git, GitHub, Visual Studio Code, Chrome DevTools, Figma
- Web Development Practices: API Integration, Asynchronous Request Handling (AJAX), Real-Time Applications
- Additional Skills: ERP Systems Implementation (Izam experience), Microsoft Office Suite
- Basic Knowledge: Node.js Fundamentals

PROFESSIONAL EXPERIENCE

Software Implementer

Apr 2024 - Oct 2024

Izam, Inc. – Smart Village, Egypt

- Implemented and configured ERP systems to align with client requirements, ensuring seamless integration with business workflows.
- Customized user interfaces using HTML, CSS, JavaScript, and jQuery to enhance usability and meet client-specific needs.
- Collaborated with cross-functional teams (developers, consultants, and clients) to analyze requirements, troubleshoot issues, and deliver tailored solutions.
- Managed data migration, system testing, and validation to ensure accuracy and efficiency during deployment.
- Provided training sessions and technical documentation to end-users, boosting adoption and reducing support requests.
- Delivered ongoing post-implementation support, resolving technical challenges and optimizing system performance.

Technical Support Specialist

Apr 2025 - Aug 2025

Amancom – Al Giza

- Provided technical assistance and troubleshooting for hardware, software, and network-related issues.
- Supported clients by identifying problems, offering solutions, and ensuring minimal downtime.
- Installed, configured, and maintained computer systems and applications to meet user needs.
- Documented support cases and collaborated with the IT team to improve service efficiency.

Front-End Angular Developer

Aug 2025 - present

Niletronix – Gesr Al Suez

- Built and maintained scalable web applications using Angular, HTML, CSS, and TypeScript.
- Translated UI/UX designs into responsive, interactive interfaces with a focus on performance and accessibility.
- Collaborated with back-end developers to ensure seamless API integration and smooth data flow.
- Optimized front-end code and applied best practices in version control (Git) for efficient project management.

Freelance Front-End Developer (Angular)

Remote

- Developed responsive and user-friendly web applications using Angular, HTML, CSS, and JavaScript.
- Translated design mockups into interactive interfaces with a focus on performance, accessibility, and SEO.
- Integrated RESTful APIs and implemented efficient data handling with Angular services and local storage.

- Delivered projects such as portfolio websites, dashboards, and management systems, ensuring scalability and client satisfaction.

Education

Bachelor's Degree – French Language

Faculty of Arts, Zagazig University | 2024

Gained advanced proficiency in French language and literature, alongside strong research, communication, and cultural analysis skills, which support effective collaboration and problem-solving in diverse, cross-functional teams.

PROJECTS

- **OSOS Al-Riadah Website – Angular 19**

<https://osos-alriadah.com/>

Developed and launched a responsive company website using Angular 19 and Bootstrap, featuring modern, mobile-friendly design, intuitive navigation, and optimized performance for an improved user experience.

- **Ajyal Al-Quran Website – Angular 19**

<http://ajyal-alquran.com>

Developed a dynamic and visually engaging website using Angular 19. Emphasized clean UI architecture, intuitive content structure, and responsive design to engage users effectively.

- **Portfolio Website – Angular, HTML, CSS, JavaScript**

<https://mahmouddoma.github.io/md-portfolio/>

Designed and deployed my personal portfolio to showcase projects, highlighting modern UI practices and performance optimization.

- **Admin Dashboard System – Angular, TypeScript, Bootstrap, API Integration**

<https://mahmouddoma.github.io/md-portfolio/>

Designed and implemented a fully responsive admin dashboard with dynamic data visualization, real-time updates, and API-driven content management. Incorporated charts, tables, and filtering features to streamline data analysis and improve user workflows.

ADDITIONAL INFORMATION

- **Languages:** Arabic Mother Tongue, English.
- **Certifications:** Earned the Angular Development Cross Skilling Nanodegree (2022) sponsored by Egypt's Ministry of Communications and Information Technology, gaining practical skills in building responsive, component-based web applications with Angular.
- **JavaScript Certification – SoloLearn :** I successfully completed the JavaScript course on SoloLearn, demonstrating both my theoretical knowledge and practical skills in JavaScript programming. This certification reflects my ability to write, understand, and apply JavaScript concepts in web development projects.
