PROFESSIONAL SUMMARY

Mid-Level Frontend Engineer with 2+ years of professional experience building enterprise Angular applications for real-time monitoring, dashboards, booking, queueing, and workflow management systems. Hands-on with Angular 19-21, TypeScript, RxJS, NgRx, Signals, REST APIs, SignalR, and MQTT. Built offline-capable, RTL/i18n-ready interfaces and performance-focused solutions using IndexedDB, Web Workers, OnPush, lazy loading, and reusable component architecture.

TECHNICAL SKILLS

Frontend: Angular 19-21, TypeScript, JavaScript ES6+, RxJS, NgRx, Angular Signals
Angular: Standalone Components, Reactive Forms, Guards, Lazy Loading, HTTP Interceptors, OnPush, Modern Control Flow
UI: PrimeNG, Bootstrap 5, SCSS, HTML5, CSS3, Responsive Design, Arabic RTL, i18n
APIs & Real-Time: REST APIs, SignalR, MQTT
Performance & Offline: IndexedDB, Web Workers, offline caching, UI performance optimization
Maps & Visualization: Leaflet, GeoJSON, geojson-path-finder, Chart.js
Testing & Tools: Jasmine, Karma, Git, GitHub, Chrome DevTools, VS Code

PROFESSIONAL EXPERIENCE

Mid Front-End Developer (Angular) | NileTronix **Aug 2025 - Present**

Cairo, Egypt | On-site

- Develop and maintain enterprise Angular applications for traffic, parking, booking, queueing, and customer-feedback systems using Angular 19-21, TypeScript, RxJS/Signals, and REST APIs.
- Integrate SignalR and MQTT for real-time operational updates across production dashboards, gates, queues, and monitoring workflows.
- Engineer offline-capable and performance-focused features using IndexedDB, Web Workers, Signals, OnPush, and lazy loading, including offline map/routing workflows.
- Build reusable RTL/i18n-ready UI patterns with PrimeNG, Bootstrap, and SCSS, and coordinate API contracts, payload validation, and frontend error handling.

Freelance Front-End Developer | Self-Employed **2023 - Present**

Remote | Continuous alongside full-time roles

- Delivered 9+ client-facing Angular and JavaScript applications across legal services, corporate/B2B, e-commerce, and software-studio websites.
- Built modular reusable UI systems and REST-integrated workflows using Angular, TypeScript, Bootstrap, Signals, and custom design systems.
- Owned responsive implementation and deployment across mobile, tablet, and desktop while working directly from business and UI requirements.

Software Implementer | Izam, Inc. **Apr 2024 - Oct 2024**

Smart Village, Al Jizah, Egypt

- Customized ERP client-facing interfaces with HTML, CSS, and JavaScript to align system behavior with business workflows.
- Performed functional testing, data-migration validation, and go-live preparation across ERP implementation activities.
- Trained end users and authored process documentation to support handover and day-to-day system adoption.

SELECTED PROJECTS

Traffic Management System | *Enterprise | NileTronix*

Built a real-time traffic monitoring interface with SignalR and MQTT, plus offline map rendering and routing for closed-network operation using IndexedDB and Web Workers.

Angular, RxJS/NgRx, SignalR, MQTT, Leaflet, GeoJSON, IndexedDB, Web Workers

Q-SYSTEM - Smart Queue & Interactive Kiosk | *Enterprise | NileTronix*

Developed a multi-branch Angular 21+ queueing and kiosk experience with Signals, bilingual RTL/LTR localization, ticket generation, SLA-oriented flows, and thermal/POS printing support.

Angular 21+, TypeScript, Signals, RxJS, REST APIs, i18n, SCSS, POS Printing

SELECTED PROJECTS (CONTINUED)

NPark - Smart Parking Dashboard | *Enterprise | NileTronix*

Delivered live occupancy and revenue dashboards, gate entry/exit and ticketing flows, memberships, analytics, and Arabic RTL interfaces optimized for high-frequency updates.

Angular 20, Signals, RxJS, NgRx, PrimeNG, Chart.js, REST APIs

Customer Feedback & Enterprise Survey Platform | *Enterprise | NileTronix*

Built a multi-branch, multi-department Angular 21 platform with operator-assisted evaluations, public QR-code survey links, a dynamic question builder, and role-based CSAT dashboards.

Angular 21, TypeScript, RxJS, Reactive Forms, REST APIs, QR Code, Multi-Tenant

QBooking - Appointment Booking System | *Enterprise | NileTronix*

Implemented multi-step booking workflows with clinic/doctor filtering, appointment-slot handling, registration forms, roles, and REST API integration.

Angular 20, TypeScript, Standalone Components, REST APIs, Bootstrap 5

CRM - Enterprise Workflow Dashboard | *Enterprise | NileTronix*

Built Angular 21 dashboard and workflow interfaces using Signals, reusable forms, and role-aware business UI patterns for internal enterprise operations.

Angular 21, TypeScript, Signals, Reactive Forms, REST APIs

SELECTED FREELANCE WORK

Avokatoo - Legal Services Marketplace | *Freelance | Product Owner & Developer*

Built a legal-services marketplace connecting clients with vetted lawyers, using a feature-driven standalone Angular architecture and a custom responsive design system.

Angular 20, TypeScript, Signals, Bootstrap 5 | Live: avokatoo.com

DEVORA - Software Engineering Studio | *Freelance | Jeddah, KSA*

Developed a corporate portfolio experience for a software engineering studio with a custom OS/control-room-inspired visual system and responsive Angular implementation.

Angular, TypeScript, Custom UI System | Live: devora-sa.com

Karim Dawod Group - Luxury Collectibles Platform | *Freelance*

Delivered a polished brand and e-commerce presence for a Cairo-based collectibles business, focused on responsive presentation and editorial product storytelling.

Angular, TypeScript, Bootstrap 5 | Live: karimdawodgroup.com

El Mostafa - Fruit Import & Distribution | *Freelance*

Built a conversion-focused corporate website for a premium fruit importer, presenting sourcing, cold-chain logistics, and B2B supply services across responsive layouts.

Angular 20, TypeScript, Bootstrap 5 | Live: elmostafafruits.com

EDUCATION

Bachelor of Arts - French Language & Literature **2024**

Faculty of Arts, Zagazig University

ONLINE COURSES & CERTIFICATIONS

- Angular Development Cross-Skilling Nanodegree - MCIT Egypt
- JavaScript Certification - SoloLearn

LANGUAGES

Arabic (Native) • **English** (Professional Working Proficiency)
